PARRY NURSERIES

Signal Mountain,
(NEAR CHATTANOOGA)

Tennessee

METHOD OF SHIPPING: All nursery stock is shipped from our Nurseries by the most practical and inexpensive method, unless otherwise requested.

TERMS: Cash with order.

PRICES: F. O. B. Nursery unless otherwise specified.

CLAIMS AND REPLACEMENTS: Nothing but first class stock, carefully packed, will be shipped. With ordinary care good results should be assured. Once stock has left our hands and is out of our control, we cannot assume further responsibility, and no claim for damage in transit, replacement, shortage or errors will be entertained unless made within ten days of receipt of same. In the event of damage in transit, contact transportation company involved and file claim immediately.

INSPECTION: Our nurseries are free from disease. A State Entomologist Certificate is attached to every shipment.

GUARANTEE: Our stock is guaranteed to be healthy, true to name and of size and quality represented. While we are very careful to keep our varieties true to name, in the event they should prove otherwise, we cannot be held responsible for more than the amount received for the plant.

CONNOISSEUR'S CORNER:

Everything has its individual beauty and attraction, but to those who seek the unusual and rarer varieties of the plant kingdom—plants seldom seen in everyday gardens, we are happy to announce the propagation of the following. These plants are still too small to be included in this year's offering.

Abelia Edward Goucher, Aucuba japonica variegata, Azalea Indica alba, Buddleia Dubonnet, Buddleia Farquahari, Cedrus libani, Cedrus Deodara, Camellia sasanqua rosea, Camellia sasanqua Cleopatra, Cleyera japonica, Cistus purpurea, Cistus corbariensis, Daphne odora, Daphne variegata, yellow flowering dogwood, Euonymus pateens, Euonymus alatus, Exochorda grandiflora, Eleagnus pungens Fruitlandi, Eurya japonica, Erica mediterraneana, Gordonia alata-maha, Ilex latifolia, Illicium anisatum, vomitoria, Juniperus pfitzeriana, Juniperus prostratum, Kolquitzia amabilis, Laurus nobilis, Laurus Zabellii, Laurus Lusitanicus, Laurus officinalis, Loropetalum chinensis, Meratia praecox grandiflora, Myrica carolinensis, Olea fragrans, Osmanthus armatus, Philedelphus Innocence, Philadelphus Norma, Philadelphus Cole's Glorious, Photina villosa, Photina serrulata, Pieris japonica, Prunsepia sinensis, Rhododendron mucronulatum, Stewartia pentagyna grandiflora, Sorbaria Lindleyi, Thea sinensis, Tamarix, Viburnum Burkwoodi, Viburnum opulus, Vitex.

HEMEROCALLIS

Commonly called daylilies, these plants are easily grown and most effective in the garden. They are quite versatile, lending themselves to perennial border plantings, naturalizing in partly shaded woodlands, along pools or streams, or in the foreground of the shrubbery border. Almost any climate is suitable. They demand neither full sun nor shade, but seem to thrive in any atmosphere. They come in a multitude of exciting colors; from palest yellows to deep glowing oranges, with rich shades of golden yellows, buff, apricot, salmon-rose, pink, rose, bronze, copper, red, maroon, near purple and wine shades.

During the hot summer months when there is a dearth of bloom, these bright stars bring life and gayety to an otherwise sun-scorched garden. By planting with season in mind bloom can be had from early spring until frost.

TIME TO PLANT—They can be planted any time during the year when the ground is not frozen, but we find it best to plant

them in the spring or just after they have finished blooming in late summer or early fall.

BLOOMING SEASONS—In selecting plants according to blooming season, please keep in mind that flowers that bloom in July here (Tennessee), would bloom in August in the North and Midwest (Iowa), and we are two weeks ahead of Indiana. We are about a month later than the Deep South (New Orleans). In order to get the best results with daylilies that repeat in the late summer or early autumn, we suggest fertilizing, cultivating and watering during dry seasons, especially in the South.

***FREE**—On daylily orders of \$10.00 or over, you may select plants from the starred varieties for one fourth more of the total of your order as a gift. For instance, if your cash hemerocallis order is \$10.00, you may select starred varieties amounting to \$2.50 free. (This does not apply to special offer collections.)

TERMS—Cash with order, check, draft or money order. Postage is paid on all orders over \$3.00. Please include 25c postage on smaller orders.

GUARANTEE — We guarantee good, healthy stock, true to name, delivered to you in good condition, but we do not assume the responsibility for the growth in your garden.

Colors are taken from Maerz & Paul Dictionary of Colors.

INTRODUCING

ELMER A. CLAAR DAYLILIES

We are very proud to have the honor of presenting Mr. Elmer A. Claar's daylilies. Although Mr. Claar has been hybridizing daylilies as a hobby for many years, this is the first time any of his creations have been introduced. Mr. Claar has what is probably the world's finest private collection of daylilies, and he is most discriminating in selecting varieties worthy of introduction.

Plum Mist—Large open flowers of plum color with a smooth velvety finish; deeper toned coloring near the contrasting shallow cup of light chrome yellow, which gives it a most striking and unusual effect. Faintly crinkled edges of petals add to its beauty. Retains its rich coloring in hot sun. Long season of bloom, with flowers well spaced on erect stalks. Blooms last of May-June. 40". \$20.00

Chameleon—Small and dainty, this vivid Blaze red tones to a delightful, pink with the sun. Petals and sepals charmingly

recurved. Petals have wide mid-rib of Jonquil yellow, giving it a startling effect, especially in the early morning while it is still a vivid Blaze red. Sepals are of Ta Ming yellow with an overcast of Blaze. Light chrome throat. Blooms mid-June to July. 36". \$15.00

WILLIAM T. WOOD DAYLILIES

Although Mr. William T. Wood is better known as a grower of camellias, and is chairman of the committee on Exhibitions and Awards for the American Camellia Society, he has been hybridizing daylilies as a hobby since 1934. Every year he blooms approximately a thousand new seedlings, but Neon is his first daylily to be placed on the market. We predict exciting things to come from Mr. Wood.

Neon—Like a bright and gay neon light this dainty daylily shines out across the garden. Very vivid, it is of medium size and lovely starlike shape. Petals of Moroccan red with sepals of Florida Gold shaded with Moroccan red. Low growing and fairly late \$5.00

CLINT McDADE DAYLILIES

Mr. Clint McDade is no newcomer to the field of hemerocallis, as some of his introductions have already become very well known. Jean is considered by many daylily authorities one of the most striking bicolors yet produced. All of the McDade originations are late-blooming, starting their show at the time most other varieties are finishing. A great many of them also have an extended blooming season; some lasting fully two months.

Cherokee—Carnelian copper petals with frilled and fluted edges. Mid-rib of Cadmium yellow. Sepals of Cadmium yellow with generous dusting of Carnelian copper. Very brilliant and showy with extremely long blooming season. July 1 through September. 36" \$2.00

Chickamauga — Quite wide sepals and petals. Frilled or fluted petals, with petals recurving slightly. Very large and showy. Titian petals with irridescence or hidden glow. Sepals of Nugget Bronze (lighter tone). Deep throat of Golden Glow yellow with faint touch of green. June, July, August. 30" \$10.00

Danny Boy—Very late, medium sized red, with recurring sepals and petals of withered rose with midrib and throat of goldenrod yellow. Makes a lovely showing in the garden, and is especially valuable for its long blooming season. July 8-September. 44" \$5.00

Hiwassee—A pastel bi-color of unusual beauty and rarity. Very late. Wide recurring petals of Vassar tan with definite midrib of lemon yellow. The petals have the appearance of having been yellow then faintly painted over with Vassar tan. Sepals of lemon yellow slightly recurring, with faint tinges of Vassar tan near the edges. Throat of lemon yellow. Large blooms well spaced on tall, erect stalks. July 8-August 20. 40" \$10.00

Lovebird—Extremely late. Blooms well spaced on tall, erect stems. Small, vivid flowers of Florida gold with tips of petals faintly flushed with Pompeian red. August 1 through September. 36" \$2.00

Merrymaker—Very wide frilled petals of cinnamon-orange red. Sepals of Cadmium yellow. Very lovely starlike shape. Late blooming. Good foliage. Well spaced blooms on tall, erect stems. July-August. 36" \$10.00

Nickajack—Unusually late blooming, this dainty hemerocallis is of light chrome with faint flushing of golden wheat on the petals, slightly deeper toned eyes. Fragrant. Very faintly a bi-color. Tall, slender stalks which stand erect. Blooms well spaced. July 15-September 15. 44" \$2.00

Sheila—Lovely lily-shaped large flowers with wide petals of amber-glow with midrib of light chrome yellow. Pointed starlike sepals of Spanish gold with faint trace of Amberglow near the edges. Throat of light chrome. The entire hemerocallis seems to have a glow as if lighted within by a gold light. An irridescence over sepals and petals. Well spaced blooms on strong, erect stalks. July 4-September 20. 42" \$10.00

Sonata — An evening bloomer. Rather crinkly petals and sepals of Sulphur or Citrus yellow. Wide sepals and petals of tubular shape. Very late. Very pale yellow, giving an effect of cool lemon ice. Greenish throat. July 22-September 1. 40" \$10.00

Spanish Cavalier—Startling in color and effect, this bi-color has petals of Burnt Sienna with reddish overcast, and sepals of Spanish yellow. Starlike in shape. Definite midrib on petals of Spanish yellow. Edges of petals faintly fluted. Late. July 9-August 25. 40" \$10.00

Whippoorwill—Spanish yellow or golden yellow self—very evenly colored. Beautiful trumpet shaped blooms of good size. Fragrant. Large. July 12 - September 20. 40" \$10.00

GENERAL HEMEROCALLIS LIST

Afterglow (Stout)—Pale buff and pastel peach, with a rosy tint in the throat and mid-vein of the petals. Remains open evenings. June-July \$3.00

Aladdin (Stout)—Strongly banded. Flowers are somewhat clustered and present a dazzling effect. Garnet-brown spot on petals; outer half golden yellow. Remains open evenings. Often repeats in fall. June. \$2.00

Amherst (Wheeler)—A large somewhat irregular flower in purple and white, the flower color being purple with milk white bands through the petals. The flower is well open, has frilled segments, sometimes twisted or recurved at the tips. June. \$25.00

***Antoinette** (Hayward)—Large, spreading flower, darkish purple-brown petals orange throat. Very striking. \$1.50

August Pioneer (Stout)—Medium sized flowers, lavishly set on slender, strong, well-branched scapes. Color chrome-orange with outer half of petals delicately flushed red. .75

***Au Revoir** (McDade)—A small late-blooming daylily of exquisite shape and texture. A prolific bloomer. Petals and sepals of a color between Golden Corn and Capucine, with eyes of Burmese gold. Dusted with gold-like tiny jewels. Mid-July through September. \$2.00

Autumn Red (Nesmith)—An open velvety red with long season of bloom. 15 to 20 flowers on well-branched stalks. June 20-August 4. \$2.00

Bagdad (Stout)—Clear orange throat, with outer petals coppery red over orange veins, and mid-zone madder-brown. Large flowers. Fragrant. June. .50

Beloit (Betscher) — Orange-yellow with floriferous bloom. June-July. .50

Bi-color (Stout) — Sepals, throat, and stripe along mid-rib of each petal are yellowish orange; petals except throat are pale red, tinged rose. Remains open evenings. June. \$1.50

Bijou (Stout) — Semi - dwarf variety, blooming profusely on many branches. Ground color orange, overcast with rich fulvous red, darker mid-zone. Mid-June-July. Repeats in the South. .60

***Boutonierre** (Stout) — Decidedly small flower, as the name implies, with wide-open, overlapping and recurving petals. Sepals clear yellow; petals light rosy peach with trace of mid-stripe. Grassy foliage. .50

Brandywine (Wheeler)—Large flowers of rich, deep mahogany coloring, shading to a purple eye zone. The throat is bright orange and extends in wide bands into the petals, gradually narrowing into lines. The orange coloring shows through the midrib section of the sepals. The flower is compact, full, very wide segments, the sepals being quite recurved while the petals open flat with the tips sometimes twisted or recurved. \$10.00

***Bright Evening Star** (McDade) — (New name for Evening Star. Changed to avoid confusion with a different clone bearing the same name). In the more pastel tones, this exquisite hemerocallis opens in the evening and remains open all the next day. Petals are yellow-tan with pale yellow sepals. Flowers of good shape, starlike, and an excellent bloomer. Late June - late August. \$2.00

***Bright Morning** (McDade) — Rust-rose petals; gold apricot sepals, appealing star-like shape. Quite a dainty flower with many flowers on the stalk. \$3.00

Brunette (Stout) — Throat yellowish orange—mid-zone madder-brown, outside a lighter shade of tan-red, creating a three-tone pattern. Small but very full flowers on much branched stems. Remains open evenings. \$1.00

Buckeye (Stout) — Flowers full, clear orange with large mahogany-red eye. Prolific grower and long period of bloom. Bunch flowered like an Amaryllis. Remains open evenings. June. \$1.50

Calypso (Burbank)—Clear, large, lemon yellow. Evening bloomer. .40

Canari (Nesmith) — Large open flowers of palest canary yellow shading to very light Dresden yellow in the throat. The blooms have a satiny finish. \$6.00

Charioteer (Nesmith)—Large open lily shaped flowers of Brazilian red and Cadmium yellow borne on tall, highly branched scapes. The broad, brilliant petals are fluted at the tips and have a decidedly yellow midrib extending into the rich yellow cup. June. \$3.00

***Charm** (McDade)—Glowing apricot rose combined with rich creamy yellow. Lovely shape. Erect, stiff stalks. Blooms well spaced. \$3.00

Chengtu—This is one of the most beautiful and unusual of all the species. Flowers of blended red and yellow, deepening to intense red in the throat. July- August. \$1.00

Cinnabar (Stout) — Orange base, sprinkled cinnamon and strongly gold glistening. Medium large, with recurring petals and sepals. June-July. .40

Circe (Stout)—Full, clear yellow, medium flowers borne on erect, well branched scapes. June-July.	\$1.00	* Fair Morn (Nesmith)—Beautiful sea-shell pink with deeper coloring near the throat.	\$4.00
* Cissy Guiseppe (Perry) — Deep rosy bronze.	.40	* Faithful (McDade) — (New name for Faith. Changed to avoid confusion with a different clone bearing the same name.) A very attractive two-tone with richly contrasting colors. Apricot-red petals, golden yellow sepals, with faint lines of apricot-red on each side of sepals. Nicely branched. July-August.	\$3.00
Copper Colonel (Sass Bros.)—Petals are hays russet with yellow midrib, sepals are yellow heavily flushed hays russet. Greenish yellow throat.	\$7.00	Festival (Stout) — Large rather narrow petaled bi-color. Sepals brownish orange yellow. Petals red with darker veins. Very showy.	\$2.50
* Craemore Henna (Plouf) — A brilliant henna with ruby iridescence and orange throat. Fine size, form and texture.	\$2.00	Fulva rosea —Considered the most beautiful of all species. Flowers on graceful stalks, in lustrous clear rose-pink.	\$4.00
Daily Double (Douglas)—Of lovely coloring and texture, this is a most unusual flower because of its habit of coming double most of the time. Deep yellow with deeper tones near the center.	\$8.00	Garden Charm (Bechtold)—Large, deep yellow with edges of petals fluted.	\$3.00
Dainty Girl (McDade) — Petals of soft apricot-tan. Sepals golden yellow. Recurving petals; medium size; good growing habits. Mid-July - September.	\$5.00	* Gayety Girl (McDade)—Firm, shapely bi-color. Nicely shaped petals and a prolific bloomer with blooms well spaced on firm stalks. July. 50"	\$3.00
Dauntless (Stout)—Pale yellowish-orange with pastel blended midzone. Large, wide and overlapping petals. Flowers of fine substance in a general pastel effect. Late June-July.	.85	George Kelso (Traub) — Large blooms heavily ruffled, soft light orange suffused with bronze, sepals some lighter.	\$2.50
Dawn Play (Nesmith)—Velvety deep rose with illuminating golden heart. Tall and of unusual coloring.	\$7.00	Gloriana (Betscher) — A golden yellow with fluted edges. May-June. Repeats.	\$1.50
Debutante (Nesmith)—A light-colored bi-color of unusual beauty. June.	3.00	* Golden Dawn (Nesmith) — Large full flowers of rich orange yellow with petals slightly ruffled and sepals recurving. Early with long season of bloom. May-June. Repeats in the South.	\$2.00
Dolly Varden (Nesmith)—Open wide full flowers. Coral pink with touch of rose on petals and sepals. June.	\$3.00	Golden Pheasant (McDade) — Lovely, warm glowing golden pheasant self with golden glow throat. Broad petals of very heavy substance. The entire hemerocallis is delightfully vivid due to the fact that the blossom has an iridescence as if it had been generously sprinkled with gold dust. July-August. Often repeats in the South.	\$7.50
* Dorothy McDade (Sass)—A splendid late blooming pure yellow with deep tubular shaped blooms. The color is cool and clear to the very heart of the flower. July-September.	\$1.00	* Golden West (Sass)—Big flowers, very smooth finish with just a light ruffle. A most striking golden flower of fine form and wonderful vigor. Long blooming season. June-July-August.	\$1.00
Dr. Stout (Traub)—Flowers of shapely form and pleasing orange color; brilliant sunburst. Ground color deep orange overlaid with red.	\$2.00	* Grace (McDade) — One of the largest hemerocallis and very outstanding in coloring. Brilliant orange-red petals with golden orange sepals with just an overcast of orange, toning with the sun to apricot-orange. Many large flowers on well branched stalks.	\$7.50
Enchantress (Cumming)—A really super-duper daylily of lovely pastel coloring and fine shape. Light yellow with fulvous dusting. July.	\$1.00		
Egyptian Red (McDade) — This fine, rank-growing hemerocallis with lovely grass-like foliage has many well-spaced blooms with Egyptian red on burnt umber petals, and sepals of yellow-green. The throat is yellow-green, the color of endive. July-August.	\$5.00		
* Etruscan (Nesmith) — Small orange-colored flowers with definite markings in the center.	.50		

Goliath (Bechtold)—Beautiful deep yellow of unusually large size. Good substance. A most striking flower.	\$3.00	cheery Clusiana tulips. Tall and well branched with many flowers on each stalk. Often repeats in the South.	\$5.00
Granada (Traub)—A wide-petaled deep mahogany. June-July	\$1.50		
Haile Selassie (Wheeler)—Large, wide-petaled, extremely dark toned flowers; purple-orange, with orange throat. Very floriferous. June.	\$15.00		
Hankow (Late specie) — Flowers are large, rich, yellowish orange with gold scarlet eye-zone in petals. August-September.	\$1.50		
Harold Patterson (McDade)—Mauve rose petals with deeper tone in the throat contrast beautifully with the apricot yellow sepals. Unusually tall and vigorous. Long season of bloom. 56". Late June-August.	\$5.00		
Heather Rose (Nesmith) — A soft pink. Something entirely different and quite attractive. June.	\$3.00		
Honey Redhead (Nesmith)—A very brilliant and unusual combination of colors. The flowers are open and flaring of velvety yet bright red with a distinct border of creamy yellow. Medium height. June-July.	\$4.50		
*Hope (McDade)—Dainty and charming is this two-tone hemerocallis with its deep apricot-rose petals and soft yellow sepals. Light colored mid-rib down the center of the apricot-rose petals. Extremely long season of bloom. Mid-June - early September.	\$2.00		
*Hyperion (Mead) — One of the finest hemerocallis. Large waxy soft canary yellow. July.	.60		
*J. A. Crawford (Betscher)—Very fine in apricot and Cadmium yellow. June	.30		
Jean (McDade)—A most sensational bi-color. Very brilliant and rich contrasting colors. Brick-red petals with a medial yellow band; rich orange sepals with yellow-orange throat. Curly, fluted petals.	\$5.00		
Lidice (Traub)—Medium sized flowers of deep fulvous orange throughout. Flowers full petaled and of fine substance. June.	\$2.00		
*Linda (Stout)—The ruffled yellow petals are flecked with cinnamon and are in pleasing contrast to the yellow sepals. A rose zone gives a pink effect. July-August.	.50		
Lustrous (Nesmith)—Large flower with bright pink color overflushed with a soft lustrous sheen, reminding one of the			
		cheery Clusiana tulips. Tall and well branched with many flowers on each stalk. Often repeats in the South.	\$5.00
		Marie Fawcett (McDade)—A lovely golden-rod yellow with long slender sepals and petals. Late blooming. July-August. Often repeats in the South.	\$7.50
		Martie Everest (McDade) — Very large starlike open sepals and petals of brilliant coloring. Orange-red petals, orange-gold sepals, rich gold throat. A most striking hemerocallis which is very showy in the garden. Stalks are firm and blooms are nicely spaced.	\$10.00
		*Mary Stoker (Perry) — Large, clear orange red of lovely shape.75
		*Matador (Nesmith)—A brilliant mahogany red of fine shape and good bloomer. Velvet blush on petals. June-July.	\$3.00
		Midwest Cavalier (H. P. Sass)—Cream with a brownish eye zone. Tall stem, good branching. June-July.	\$2.00
		Midwest Star (H. P. Sass)—Pale yellow, large flowers. One of the finest.	\$7.00
		Mikado (Stout)—Rich orange with large mahogany red eye zone. Repeats in the South.35
		*Minnie (Hayward)—Small mahogany red flower. Good garden effect.	\$1.50
		*Minuet (Nesmith)—Subtle blend of frost pink shadowed deeper rose on the petals and sepals giving a rosy pink effect in the garden.	\$4.00
		Mrs. B. F. Bonner (Russell)—Very similar to Hyperion but much larger and wider petals. June-July.	\$2.00
		Mrs. Hugh Johnson (Russell)—Fiery red with satin sheen. Wide petals and sepals are slightly reflexed. Small yellow throat. June-July	\$4.00
		Norman Hamilton (McDade) — Lovely glowing deep yellow with rich orange throat. Unusually large and of fine texture. Exquisite shape. July-August.	\$7.50
		Nubiana (Hayward)—Very dark chocolate red—low growing. June. Repeats in the South.60
		Osceola (Hayward)—Very dark rich mahogany. Early—late May-June.50
		Painted Lady (Russell)—Huge open flowers with ruffled edges. Rose gold blend with deeper rose zoning and veining—sprinkled with gold dust and cinnamon. June-July.	\$10.00

* Patricia (Stout)—A clear and even tone of pale yellow with a greenish throat. Unusually large and of fine texture. Late May-June. .50	Salmon Rose (Hayward)—Lovely salmon rose shading to gold at center. June. Repeats in the South. .50
Peppermint Stick (McDade)—One of the most appealing of all the <i>hemerocallis</i> in the garden. Almost a pure red with a strip of white down the mid-rib giving it the appearance of Peppermint candy stick. Fades with the sun to a clear pink. A small flower with pleasingly recurved petals and sepals. Many blooms on a stalk. .50	Saturn (Stout)—Flowers of robust multi-flora type; numerous in clusters. Dark orange-red, overcast bronze. .50
* Port (Stout)—Full, small flowers of rich, sprightly red. Many flowers on much branched scapes. June. Repeats in the South. .50	Serenade (Stout) — Very light pastel shade of yellow and pink in pleasing harmony. Petals twisted and crinkled with faint halo. June. .75
Princess (Stout)—Clear, uniform lemon-yellow with full, recurved petals. Fragrant. Erect and much branched. \$2.00	Sonny (Stout)—Clear, pale yellow, heavy waxy texture. Open evening and next day. June-July .50
Purple Finch (Nesmith)—Brilliant iridescent red purple with a deeper flame-like blotch in the throat around a small yellow center. Repeats in the South. \$6.00	Southern Queen (McDade)—A very fine bloomer with beautiful large orange red flowers of fine texture. The exquisite bronze orange-red coloring is enhanced by a definite gold ribbing through the center of the petals. Retains vivid coloring in hot sun. July-August. .50
Purple Flash (Russell)—Purple petals with deep purple eyezone; sepals yellow overcast with purple. Begins blooming June and blooms almost continuously until frost. .50	Stalwart (Cook)—Tawny reddish brown. Rich in coloring; large flowers. .60
Purple Waters (Russell)—Ruffled petals of deep rich wine color. Retains its coloring in hot sun. Full, large flowers. June-July. .50	Starlight (Nesmith)—Very fine light yellow, slightly ruffled. Night bloomer. June-July .50
Rajah (Stout)—Large, gaily colored English-red with conspicuous eye-zone; throat pale orange, with greenish tinge. .75	Star of Gold (H. P. Sass) Huge pale yellow flowers. June-July. Repeats in the South. .50
Red Bird (Stout)—Petals even-toned vermillion red with ox-blood eye and yellow-green throat. Petals recurved and semi-full. .50	* Stripey (McDade)—Distinctive and different, this <i>hemerocallis</i> has India red petals and sepals with rich ochre throat—the ochre from the throat forming a V on the petals and sepals, then ribbing the India red to the end of the petals. Lovely shape with recurring petals and sepals. Mid-June-July-August. .50
Reginald Steed (McDade) — Recurring petals of warm rush orange with deep golden center, the gold spreading outward in V shape, forming a delicate mid-rib on the rust-orange petals. Very large. Nicely branched. June-July-August. \$5.00	Sunny West (H. P. Sass)—Large, pale yellow. Late June-July. .50
* Rosita (Hayward)—Near carmine-crimson with coppery red tone. Medium flower, attractive color and good shape. June-July. .50	Sweetbriar (Nesmith)—Very large, wide petaled rose-pink. .50
Royal Ruby (Nesmith)—Brilliant red, almost crimson with slightly recurring sepals and petals. June-July. \$10.00	Symphony (Stout)—A delicate blend of pastel tones. Sepals toned yellow; petals rose, with midband of darker red. .50
Royalty (Nesmith)—Full maroon flowers with velvety sheen. Orange throat. June-July .50	Tracery (Nesmith)—Open cup shaped blooms of pale yellow with faint tracing of salmon buff in the center, giving it the effect of delicate lace. Flowers of firm substance on well-branched stalks. July. .50
Ruby Supreme (Wheeler) — Luminous ruby red with green gold throat. June-July .50	Triumph (Stout) — Large, rich orange with a slight fulvous red halo in midzone. Petals broad, strongly recurved. June .50
	Vesta (Stout)—Semi-dwarf, deep orange with an unusual glistening gold sheen. June. Repeats in the South. .50

Wau-Bun (Stout)—Large flowers of light Cadmium yellow, slightly sprinkled with faint traces of fulvous red, abundantly gold-glistening; petals large, broad with ends slightly and distinctively twisted. .75

Wekiwa (Traub) — Rich velvety red—very brilliant. \$4.00

***Welcome** (McDade)—Deep, dusty rose which glows and glistens with a brilliant iridescence. Seems to be sprinkled with golden jewels. The flowers have broad recurving petals and sepals. July-August. \$3.00

Wolof (Stout) — Dark velvety maroon, throat clear orange. \$2.50

***Wonder Gold** (Betscher)—Lovely large golden flowers. May-June. Repeats. .75

Yeldrin (Stout)—Small but full, very uniformly yellowish orange; buds and back of sepals are noticeable brown-red. \$2.00

PAEONIA ARBOREA — TREE PEONIES

Words cannot do justice to the magnificence of the tree peony—aristocrat of shrubs. To those familiar with its beauty and charm, your hearts have already been won, and you can easily understand why the tree peony was considered almost sacred in the Imperial Gardens of the Chinese Emperors, and was the inspiration for poets and painters during China's Golden era. To those not familiar with this distinctive plant, a rare treat is in store for you.

The name "Tree Peony" is somewhat misleading, as it is really a shrub, attaining a height of four to five feet. Plants have been known to produce as many as four hundred magnificent flowers in one season, measuring from 9 to 12 inches in diameter.

Its lacy foliage makes the tree peony a beautiful specimen plant even without the glorious blooms of crepe-paper-like texture, ruffled and crimped on the edges of the petals.

So sensational was the introduction of the tree peony to Europe in the 17th Century, that single plants exchanged hands at between four and five hundred dollars each. There are plants in Boston more than a hundred years old, and in Philadelphia many plants date back to the Centennial Exposition of 1876.

Can it be wondered that the Tree Peony is referred to as "The King of Flowers" and "The King's Ministers"?

We are happy to be able to offer this favorite of the millionaires at a price the millions can afford.

The following prices are for four to five year old shrubs, field grown; sizes varying according to variety, ranging in height from 12 to 24 inches. These field-grown plants cannot be compared with 5 or 6-inch pot-grown plants sometimes offered at a lower price.

Cultural directions included with each shipment.

Abraham Lincoln —Silvery pink	\$ 5.00	Mad. Ferdinand Lemaitre —Pink	5.00
Adzuma Saki —Deep scarlet	8.00	Mme. Lemoine —Apricot	10.00
Alba Violacea —Violet	5.00	Mme. Stuart Low —Salmon red	6.00
Archiduc Ludovico —Flesh pink, turning soft lilac	5.00	Meteore —Rose	5.00
Athlete —Purple	5.00	Michishibi —Crimson	10.00
Balzac —Carmine pink	5.00	Morris —Cherry red	6.00
Baronne d'ales —Vivid pink	6.00	Moutan —Rose	5.00
Beaute de Tokio —Purple carmine	5.00	Neron —Scarlet	8.00
Belle d'Orleans —Carmine	5.00	Osiris —Red	10.00
Blanche de Noisette —Rosy white	5.00	Regina Belgica —Rose salmon	5.00
Byou de Chusan —White	5.00	Reine de Portugal —Dark pink	5.00
Centifolia rosea —Pink	5.00	Reine des Violettes —Violet	5.00
Cobienski —Rose violet	5.00	Saigyo-Zakura —Blush pink	10.00
Comtesse de Tudor —Rose	6.00	Savii —Fine red	5.00
Donna Maria —Satiny pink	5.00	Souv. de Chenonceaux —Cherry red	6.00
Elisabeth —Rose (Reine Elizabeth)	6.00	Souv. de Ducher —Violet shaded purple	8.00
Flora —Pure white	12.00	Souv. d'Etienne Mechlin —Salmon	5.00
Fragrans maxima plena —Clear rose—fragrant	6.00	Souv. de la Couvellerie —Lilac rose	5.00
Georges Paul —Violet and amaranth	5.00	Souv. de Maxine Cornu —Yellow, heavily shaded orange, large double blooms; fragrant; pro- fuse bloomer	15.00
George Sand —Salmon pink	5.00	Triomph de Gand —Rose	5.00
Gioku-Senshiu —Rose red	10.00	Triomph de Vander Maelen — Violet pink	5.00
Haku Gan —Snow white	10.00	Ville de St. Denis —White	5.00
Henryi —Amaranth	5.00	Yaso Okina —Pure white	25.00
Imp. Josephine —Rose	5.00		
Iro-no-Seki —Reddish brown	8.00		
Jeanne d'Arc —Salmon	5.00		
Jitrenka —Pink	5.00		
Jules Pirlot —Satin rose	5.00		
Kuro-botan —Maroon red	8.00		
Lactea —White	10.00		
Louis Mouchelet —Salmon red	6.00		
Mme. de Vatry —Satiny pink, shaded lilac rose	6.00		

HERBACEOUS PEONIES

These plants are fine 3 to 5 eye divisions, with sufficient vigorous roots to insure rapid growth and development. Fall planting is best.

Adolph Rousseau —Semi-double— deep maroon red	\$ 1.00
Albert Crousse —Tall shell pink— late	1.00
Argentine —Purest white, fragrant	2.50
Auguste Dessert —Crimson, silver edge	1.00
Bunker Hill —Light red, floriferous	1.00
Denise —White flecked crimson	2.50

Dr. H. Bransby —Red	1.00
Edulis Superba —Dark pink	1.00
Elwood Please —Pale rose-pink changing to flesh pink	1.00
Felix Crousse —Brilliant red	.75
Festiva Maxima —Fine double white, crimson flecks	1.00
Glory of Boskoop —White	1.50
Inspector Lavergne —Early crimson	1.00
James Kelway —Rose white, early, fragrant	1.00
Jeannot —Flesh pink, extra fine— late	1.00
Karl Rosenfeld —Dark crimson, good	1.00
Lady Alex. Duff —Pale pink	1.00
Laura Dessert —White with yellow center—midseason	1.25
Livingstone —Lilac rose	1.00
Mme. Ducel —Soft pink	1.00
Mme. Edourd Doriat —White, fine	1.50
Maman Millet —Pure white	1.00
Marie Lemoine —Late pure white	2.00
Mons Jules Dessert —Cream white	1.00
Mons Jules Elie —Deep pink, very large	1.00
Mons Krelage —Bright red; center amaranth	1.00
Philippe Rivoire —Considered best red—fragrant	1.50
President Taft —Delicate pink	1.00
Primavere —Sulphur yellow— lovely	1.50
Raoul Dessert —Mauve, shaded pink	1.00
Sarah Bernhardt —Apple blossom pink	1.00
Zus Braun —Extra large flowers of ivory white tinged lilac and carmine	1.50

AZALEAS

Without a doubt azaleas are the most beautiful flowering plant we have, their season lasting for several months by planting with blooming time in mind. All azaleas are profuse bloomers and give a beautiful effect with their solid mass of color.

Some are dwarf, making them especially suitable for the rockery; others are of compact, medium growth and blend in well with other evergreen shrubs.

For all-around performance—brilliant coloring, profusion of bloom and versatility of use, there is no shrub that can rival the azalea.

In the South it is best to plant azaleas as you would rhododendron—on the north or northwest side of a slope or on the north or northwest side of an evergreen. This particularly applies to evergreen varieties.

MOLLIS AND MOLLIS X SINENSIS HYBRIDS

Unlike all other Azaleas, the Mollis hybrids are quite tolerant of lime and do well almost anywhere. They are very hardy.

Aurea floribunda —Yellow, 12-18 in., 15- 18 in., 18-24 in.
Chev. de Reali —Light yellow, 15-18 in., 18-24 in.
Comte de Kerckhove —Orange red, 12-15 in., 15-18 in., 18-24 in.
Dr. Reichenbach —Salmon, 12-15 in., 15- 18 in., 18-24 in.
Emil Liebig —Salmon, 15-18 in., 18-24 in., 2-3 ft.
Hort H. Witte —Orange—12-15 in., 15- 18 in., 18-24 in.
Hugo Koster —Orange red—15-18 in., 18-24 in., 2-3 ft.
Nicolas Beets —Deep yellow, 15-18 in., 18-24 in.
Salmonea rubra —Orange-red, 15-18 in., 18-24 in.

PONTICA HYBRIDS — HARDY GHENT AZALEAS

These are the fine hybrid azaleas (also *Rustica plena*) whose ancestors were taken many years ago from the wilds of America by enthusiastic hybridizers of fine plants to the Old World. There they were crossed with Chinese and Japanese azaleas to produce a profusion of color, in single and double blooms, ranging from white to all shades of yellow, pink, salmon and red.

Retaining the hardiness of their North American ancestors, these native sons have now returned to their ancestral home, bedecked in a magnificence of splendor and beauty. Delightfully fra-

grant. They are brilliant in fall as well as spring with leaves turning to richest shades of coppery red and fiery browns.

Bouquet de Flore—Deep pink, 18-24 in., 2-3 ft.

Coccinea speciosa—Orange red 15-18 in., 18-24 in., 2-3 ft.

Fanny—Dark lilac pink, 18-24 in., 2-3 ft.

Gloria Mundi—Vermillion red, 18-24 in., 2-3 ft.

Grandeur Triumphant—Violet rose, 18-24 in., 2-3 ft.

Nancy Waterer—Yellow, 18-24 in., 2-3 ft.

Narcissiflora (Double)—Sulphur yellow, 12-15 in., 15-18 in., 18-24 in., 2-3 ft.

Raphael de Smet (Double)—Light rose, 12-15 in., 15-18 in., 18-24 in.

Unique—Deep yellow, 15-18 in., 18-24 in., 2-3 ft.

RUSTICA PLENA

Aida—Purple rose, 12-15 in., 15-18 in.

Corneille—Rose, 12-15 in., 15-18 in., 18-24 in.

Director C. Ohrt—Lilac white, 12-15 in., 15-18 in.

Il Tasso—Scarlet-apricot, 12-15 in., 15-18 in.

Norma—Rosy red, 12-15 in., 15-18 in.

Prices on all above azaleas: B. & B.
12-15 in. \$3.50
15-18 in. 4.50
18-24 in. 5.50
2-3 ft. 7.50

HARDY EVERGREEN AZALEAS

KURUME—*Obtusum Japonicum*

Dwarf-growing evergreens, bearing myriads of small flowers in spring. Very hardy.

Bridesmaid—Glowing salmon-pink flowers borne in large clusters. 9-12 in., 12-15 in., 15-18 in.

Christmas Cheer—Small flowers of deepest crimson. Very attractive. One of the best varieties. 12-15 in.

Coral Bells—Dainty, bell-shaped pink flowers in a profusion of bloom. 12-15 in., 15-18 in.

Esmeraldo—Pink, 6-9 in., 9-12 in.

Hatzugiri—Purplish-crimson, 6-9 in.

Hexe (Firefly)—Showy, deep scarlet, hose-in-hose flowers. 6-9 in., 9-12 in., 12-15 in., 15-18 in.

Hinodegiri—Brilliant crimson-red flowers smother the entire plant. 9-12 in., 12-15 in., 15-18 in.

Salmon Beauty—Large, hose-in-hose, salmon-pink flowers. 6-9 in., 9-12 in., 12-15 in., 15-18 in.

Salmon Queen—Large, single, salmon-pink flowers, 12-15 in., 15-18 in.

Snow—Good-sized, hose-in-hose flowers of purest white. 9-12 in., 12-15 in., 15-18 in.

Sweet Briar—Medium-sized, single pink flowers, 6-9 in., 9-12 in., 12-15 in.

HARDY JAPANESE

Fairly fast growing, these extremely hardy azaleas are evergreen except a few which lose their leaves in the New England states. Free flowering and plants of great vigor.

Hinomayo—Soft pink flowers. Profuse bloomer. One of the hardiest, 9-12 in., 12-15 in., 15-18 in., 18-24 in.

Macrantha Orange—Orange-red flowers, late blooming, 9-12 in., 15-18 in.

Macrantha Pink—Pink flowers, late blooming, 12-15 in., 15-18 in.

Maxwelli—Carmine-red, single flowers, 9-12 in., 12-15 in., 15-18 in., 18-24 in.

UVYKIANA AZALEAS

A new race of very large flowered Japanese Azaleas, produced by crossing hardy *malvatica* hybrids with *Azalea mollis*. Sturdy growers, prolific bloomers. Spring flowering, very hardy.

Beethoven—Large mauve, 6-9 in., 9-12 in., 12-15 in., 15-18 in., 18-24 in.

Schubert—Light pink, 6-9 in., 9-12 in., 12-15 in., 15-18 in.

Johann Strauss—Salmon rose, 6-9 in., 9-12 in., 12-15 in., 15-18 in.

Palestrina—Ivory white, 9-12 in., 12-15 in., 15-18 in.

Sibelius—Orange-red, 6-9 in., 9-12 in., 12-15 in.

Prices on all above varieties: B. & B. 6-9 in., \$1.50; 9-12 in., \$3.00; 12-15 in., \$4.00; 15-18 in., \$5.00; 18-24 in., \$7.50.

AZALEA SPECIES:

arborescens — **Fragrant White Azalea**— Foliage bright green turning to crimson in autumn. Sweet scented white flowers in early summer. 1½-2 ft., \$2.80; 2-3 ft. \$3.75; 3-4 ft. \$6.00—all B. & B.

calendulacea — **Flame Azalea** — Flowers red-orange to canary. Very brilliant and showy 1-1½ ft., \$1.40; 1½-2 ft., \$2.00; 2-3 ft., \$2.40; 3-4 ft. \$3.25—all B. & B.

nudiflora — **Pinxter Bloom** — Handsome free-flowering. Flowers in early spring before leaves appear; deep pink, profuse and showy. 1½-2 ft. \$1.85; 2-3 ft. \$2.75; 3-4 ft. \$3.50—all B. & B.

HYBRID RHODODENDRON

The aristocrat of all broad-leaved evergreens, these handsome plants are very majestic with their lush, almost tropical luxuriant foliage. Huge clusters of exotic flowers are framed artistically with broad, leathery foliage.

Contrary to common belief, rhododendron are not difficult to grow. They require well-drained acid soil. Plant on the north slope of a hill, or on the north side of an evergreen.

All varieties listed here are extremely hardy—all B. & B.

Caractacus — Purple red, 24-30 in., \$10.00; 30-36 in., \$15.00.

Dr. J. H. Lovink — Aniline red, 18-24 in., \$7.50; 24-30 in., \$10.00.

Dr. V. H. Rutgers — Red, fringed, 18-24 in., \$7.50; 24-30 in., \$10.00.

F. D. Godman — Dark red, 18-24 in., \$7.50; 24-30 in., \$10.00; 30-36 in., \$15.00.

Ignatius Sargent — Light red, 24-30 in., \$10.00; 30-36 in., \$15.00; 36-42 in., \$17.50.

Kate Waterer — Rose, yellow center, 18-24 in., \$7.50; 24-30 in., \$10.00.

Lord Roberts — Dark red, black blotch, 18-24 in., \$7.50; 24-30 in., \$10.00; 30-36 in., \$15.00.

Parsons Gloriosum — Rosy pink, 24-30 in., \$10.00; 30-36 in., \$15.00; 36-42 in., \$17.50.

Prof. F. Bettex — Scarlet red, 18-24 in., \$7.50; 24-30 in., \$10.00.

Roseum superbum — Soft rose, 24-30 in., \$10.00; 30-36 in., \$15.00; 36-42 in., \$17.50.

Van der Hoop — Carmine rose, 18-24 in., \$7.50; 24-30 in., \$10.00; 30-36 in., \$15.00.

Rhododendron Catawbiense — Native species. Early bloomer, medium size, dark green leaves. Purplish red flowers in May. 1-1½ ft., \$1.70; 1½-2 ft., \$2.25; 2-3 ft. \$2.90; 3-4 ft. \$4.80; 4-5 ft., \$9.75.

HARDY NATIVE PLANTS

Eupatorium urticaefolium — American Ageratum. Deciduous. Stem smooth, branching leaves. Flower heads white, clustered. Late summer. Woodlands and semi-shaded places. each 20c

Geranium maculatum — Wild Geranium. Erect hairy. Leaves five-parted, lobed and cut. Large pale, pink-purple flowers in spring. Shade. each 25c

Iris Cristata — Crested Iris. Leaves bright green all summer. Blue flowers in early spring. Excellent for rock garden. clump 25c

Lobelia cardinalis — Cardinal Flower. Deciduous. Flowers bright red late summer. each 25c

Mitchella repens — Partridge Berry. Evergreen ground cover. Small rounded leaves, veined with white. Tiny, fragrant white flowers of magnolia-like texture in early spring and summer, followed by oval-shaped red berries. clump 25c

Ranunculus repens — Creeping Buttercup. Deciduous. Flowers deep yellow, early spring. Low moist ground. Semi-shade. each 25c

Silene virginica — Firepink. Deciduous. Large crimson or scarlet flowers in early spring. Splendid for rock garden. each 25c

Smilacina racemosa — False Solomon Seal. Deciduous. Leaves oblong, veiny. Flowers greenish-white at the end of the flower spike in June. Cluster of pale red speckled berries in August. Shade. each 25c

Phlox subulata — Moss Pink. Evergreen ground cover. Flowers crimson, pink or nearly white. April to June. Excellent border or rock garden plant. each 30c

Polystichum acrostichoides — Christmas Fern. 9-18 in. evergreen, and extremely ornamental for massing in shade or partial shade. clump 20c

Tiarella cordifolia — Alleghany Foam flower. Deciduous. 6-12 in. White lacy flowers in early spring. Shade. clump 25c

VINES

Bignonia radicans—Trumpet Creeper. Deciduous. Bold growing with interesting foliage and partially climbing habit. Flowers huge trumpet shaped, varying in color from bright brownish orange to vivid scarlet. 2-4 ft. 50c

Lonicera Japonica Halliana—Hall's Honeysuckle. Very strong growing. Dark green leaves. In early summer extremely fragrant white flowers changing to yellow. Splendid climber or ground cover. Sun or shade. 12-15 in. 35c

ORNAMENTAL AND FLOWERING SHRUBS

Barberry

Berberis atropurpurea—Red-leaved Barberry. A sport of the well-known Barberry thunbergi, differing by having bright red foliage, corresponding to the Red-leaved Maple. Yellow blossoms followed by red berries in the fall, which hang on well into winter. Sun. Attains height 4-5 ft. 12-18 in., .75; \$7.50 doz; 18-24 in., \$1.00; \$10.00 doz.; 2-3 ft., \$1.25, \$12.50 doz.

Sweet Shrub

Calycanthus floridus—Sweet Shrub. 5-6 ft. Chocolate-colored flowers of wonderful fragrance. An old favorite. 3-4 ft. \$1.25.

Caragana—Pea Shrub

Caragana arborescens—Siberian Pea Shrub. Cutleaf caragana. Yellow twiggled upright shrub with pea-like yellow flowers in spring. An abundance of bright green foliage. 2-3 ft., \$1.50; 3-4 ft. \$2.00.

Corylopsis—Winterhazel

Corylopsis pauciflora—Winterhazel. Yellow flowers in early spring. Densely branched, very floriferous. Flowers before leaves appear. 18-24 in., \$1.75; 2-3 ft., \$2.00.

Cotoneasters—Rockspray

Cotoneaster adpressa—From China. A spreading dwarf shrub—a gem for the rock garden with tiny leaves, white flowers and brilliant dainty red berries. Creeping. Hardy. 12-15 in., \$1.50.

Cotoneaster Dielsiana—Arching branches, red fruit, 12-15 in., \$1.50; 18-24 in., \$2.50.

Cotoneaster divaricata—Spreading Cotoneaster. From China; grows 5-6 ft. high. Graceful spreading habit, small green polished leaves; red, egg-shaped fruit. Glorious scarlet Autumn tints. 2-3 ft., \$1.25; 3-4 ft., \$2.00.

Cotoneaster horizontalis—Low spreading shrub with graceful sprays arching out over ground and rocks making an excellent cover. Tiny leaves turn bright orange and red in the fall. Red berries. 12-15 in., \$1.50.

Cotoneaster Zabeliana—Big red fruit, 12-15 in., \$1.50; 18-24 in., \$2.50.

Euonymus

Euonymus Americana—Brook Euonymus. Hardy, erect shrub with slender green branches and dark green leaves. The rich fruits are concealed in bright wine-red pods, bursting open in autumn and revealing scarlet red seeds. Very showy. 2-3 ft., \$1.00; 3-4 ft., \$1.60.

Flowering Quince

Cydonia japonica—Splendid old-fashioned shrub. One of the earliest shrubs to bloom. Red and orange flowers lasting for several weeks. 18-24 in., 75c; 2-3 ft., \$1.00; 3-4 ft., \$1.50.

Forsythia—Golden Bell

Forsythia Spectabilis—Average height 6-8 feet. A most useful shrub. One of the first flowering shrubs to bloom, covered with yellow, tubular flowers before the foliage appears. Newest and most popular and most profuse bloomer of the Forsythias. Rich gold yellow. 2-3 ft., .60; 3-4 ft., .75; 4-5 ft., \$1.00.

Hamamelis—Witch-Hazel

Hamamelis japonica arborea—A most satisfactory winter-flowering shrub. Golden yellow flowers with purple calyx before the leaves appear. 3-4 ft., \$3.50; 4-5 ft., \$4.00.

Hamamelis mollis—Finest golden yellow. Fragrant flowers before leaves appear. 2-3 ft., \$3.50; 3-4 ft., \$4.50.

Hamamelis Zucceriana—Pale yellow. Very floriferous and extremely hardy. 2-3 ft., \$3.50; 3-4 ft., \$4.50; 4-5 ft., \$5.00.

HYDRANGEA

Hydrangea arborescens grandiflora—Hills of Snow. Pure white, early blooming variety continuing throughout the summer. Full sunlight or shade. 18-24 in., \$1.00; 2-3 ft., \$1.35.

KALMIA

Kalmia latifolia—Mountain Laurel. One of the most beautiful and attractive broad-leaved evergreens. Dark green lustrous foliage and masses of pink or rose colored flowers appearing in lavish profusion in late spring. 1-1½ ft., \$1.60; 1½-2 ft., \$2.25; 2-3 ft., \$3.00; 3-4 ft., \$4.25; 4-5 ft., \$6.00.

KERRIA

Kerria japonica single—An unusually attractive shrub with showy golden yellow single flowers, much like a small rose, in early spring, then continues blooming all summer. The smooth bright green branches are especially effective in winter. 18-24 in., .75; 2-3 ft., \$1.00.

LIGUSTRUM — PRIVET

Ligustrum Amurense—Amur River Privet. Southern evergreen type. Retains its glossy green foliage throughout the average winter. Rapid, compact grower. Profusion of white flowers in spring, and large quantities of shiny blue berries hang on throughout the winter.

Ligustrum Ovalifolium—California Privet. Dark, glossy green foliage. Not evergreen.

Prices on above Privets: 10-50 plants: 18-24 in., 15c each; 2-3 ft., 25c each; 3-4 ft., 35c each; 50-100 plants: 18-24 in., 12c each; 2-3 ft., 22c each; 3-4 ft., 30c each.

LONICERA—Winter Honeysuckle

Lonicera fragrantissima—8 ft. A Chinese shrub. Highly esteemed for its exceedingly sweet-scented pinkish-white flowers which appear in January. The plant continues to bloom for a long time. 4-5 ft., \$1.50; 3-4 ft., \$1.25; 2-3 ft., \$1.00.

PHILADELPHUS—Mock Orange

Philadelphus Albatre — Lovely sweet-scented pure white flowers.

Philadelphus Belle Etoile—Large, milky-white flowers with conspicuous light purple blotch in center. Vigorous. Fragrant.

Philadelphus Girandole — Double white. Very good.

Philadelphus Inodorus—
Price on all philadelphus: 2-3 ft., \$1.00; 3-4 ft., \$1.50.

PYRACANTHA—Firethorn

Pyracantha Coccinea Lalandi — Bright orange-colored berries literally cover this plant during the winter. White flowers in early spring. 12-15 in., \$1.00; 18-24 in., \$1.50.

SPIREA

Spirea vanhouttei—Vanhoutte Spirea. A graceful shrub growing 6-8 ft. in height. Produces a profusion of single white flow-

ers during early spring. One of the most popular spireas. 2-3 ft., .60; 3-4 ft., .75; 4-5 ft., \$1.00.

VIBURNUM

Viburnum Carlesii—Very fragrant white, waxlike flowers borne in clusters. Buds are pink. Leaves soft green. Prefers partial shade.

Viburnum fragrans—Very beautiful fragrant blush-pink flowers. Winter-blooming.

Viburnum rhytidophyllum — Leatherleaf Viburnum. One of the most hardy of all the broad-leaved evergreens. Thick, leather-like evergreen foliage; white flowers in early spring, followed by red berries.

Prices on all viburnums: 12-15 in., \$1.00; 15-18 in., \$1.50; 18-24 in., \$2.50.

FLOWERING AND SHADE TREES

Acer Dasycarpum—Silver Maple. Fast grower. Light green foliage, slightly silvery underneath. 6-8 ft., \$2.50; 8-10 ft., \$3.50; 3-4 in., caliper, \$17.50; 4-5 in., caliper, \$25.00.

Acer Rubrum—Scarlet Maple. A medium grower. Light green foliage turning scarlet in autumn. 6-8 ft., \$3.50; 8-10 ft., \$4.50.

Acer Saccharum—Sugar Maple. Excellent shade tree with wide spreading, slender branches. Light green foliage, changing to brilliant autumn shades. 6-8 ft., \$3.50; 8-10 ft., \$4.50; 10-12 ft., \$6.00.

Ailanthis grandulosa—Tree of Heaven. Rapid growing, hardy. Flowers pale lilac-blue. Large leaves. Withstands considerable smoke. 4-6 ft., \$2.50.

Amelanchier canadensis — Downy Shadblow or Serviceberry. Attractive white flowers in very early spring, followed by edible maroon red berries. 2-3 ft., \$1.80; 3-4 ft., \$2.10.

Cercis canadensis—Redbud or Judas Tree. Beautiful small tree with small pink-lavender flowers literally covering the stems in early spring before the unusually attractive foliage appears. 3-4 ft., \$1.50; 4-6 ft., \$2.25; 6-7 ft., \$3.50.

Cornus florida — White flowering dogwood. It is impossible to do justice to the

dogwood through pen and ink. Its manner of growth is so entrancing, branching out in a flat kind of way, as though some Japanese decorative artist had arranged the branches to show the blooms to the best advantage. 2-3 ft., \$1.00; 3-4 ft., \$2.25; 4-5 ft., \$4.50; 5-6 ft., \$6.00; 6-7 ft., \$8.00; 8-10 ft., \$20.00.

Ilex opaca—American Holly. Handsome, broadleaved evergreen. Leaves bright green, shiny. Flowers small white, fragrant, followed by an abundance of red berries. 2-3 ft., \$3.50; 3-4 ft., \$4.50; 4-5 ft., \$6.00.

Laburnum Alpinum—Scotch laburnum. Golden chain tree. Hardy. 3-4 ft., \$3.00; 4-5 ft., \$3.50.

Laburnum Anagyroides—Very lovely variety of Golden Chain Tree. 3-4 ft., \$3.00; 4-5 ft., \$3.50.

Laburnum Vossi—Long-clustered Golden Chain. Small tree-like shrub with flowers of pure golden yellow and formed exactly like those of wisteria. Flower clusters as long as 18 inches in length. 3-4 ft., \$3.00; 4-5 ft., \$3.50.

Liquidambar styraciflua—Sweet Gum. Medium size, reasonably fast-growing shade tree with odd, corklike bark. Large green leaves during summer, turning to beautiful red-purple in autumn. 4-6 ft., \$2.25; 6-8 ft., \$3.50; 8-10 ft., \$10.00; 2-2½ in. caliper, \$20.00.

Leriodendron tulipifera—Tulip Tree. Also known as the Poplar. Large stately fast-growing shade tree. Cup-shaped flowers of pale yellow with bright orange blotches in the center. 5-6 ft., \$2.00; 6-8 ft., \$3.00; 8-10 ft., \$4.00; 10-12 ft., \$6.00.

Magnolia acuminata—Cucumber Tree. Somewhat resembles the Tulip Tree. Large, light green foliage. Huge cream-colored blossoms, tulip shaped, in the spring, followed by red seed pods. 6-8 ft., \$3.50; 8-10 ft., \$5.00.

Magnolia Amabilis—Pure white, medium flower, very rare. Free flowering. Lower growing than most of the other magnolias. 2-3 ft., \$5.00; 3-4 ft., \$7.50.

Magnolia Liliflora—Flowers large and lily-like in shape, rich reddish purple on the outside with creamy white on the inside. One of the finest flowering trees. 2-3 ft., \$5.00; 3-4 ft., \$7.50.

Magnolia Rustica Rubra—Large, cup-shaped, dark reddish purple flowers with handsome seed pods 6 inches long. Vigorous grower and especially desirable where a tall spreading magnolia is wanted. Blooms later than soulangeana, and is one of the best of the more recent introductions. 2-3 ft., \$5.00.

Magnolia Soulangeana—Small tree with large, 9-inch petal, pinkish flowers before the leaves appear in the spring. 18-24 in., \$3.50; 2-3 ft., \$5.50.

Magnolia Soulangeana Nigra—Deep purple. Blooms later than Soulangeana. 18-24 in., \$3.50; 2-3 ft., \$5.00; 3-4 ft., \$7.50.

Magnolia Stellata—Star Magnolia. A dwarf grower. Numerous delicate pinkish-white waterlily-like flowers appear in the early spring. Fragrant. 15-18 in., \$3.50.

Malus coronaria—Wild Sweet Crab. Spreading spiny branches. Leaves heart-shaped, bright green, yellow or bronze in autumn. Pink or rose colored flowers in May scent the entire area. Yellow fragrant apples in autumn. 18-24 in., .75; 2-3 ft., \$1.00.

Nyssa sylvatica—Sour Gum. Medium to small grower. Noted for its scarlet foliage in autumn. 4-5 ft., \$2.00; 6-8 ft., \$3.50; 8-10 ft., \$4.50; 2-2½ in. caliper, \$20.00.

Oxydendrum arboreum—Sourwood. A medium size tree with long, glossy green leaves which turn brilliant red in autumn, making it one of the most beautiful autumn forest trees. Creamy white flowers, like clusters of lily of the valley, remain on several weeks in summer. 5-6 ft., \$6.00; 6-7 ft., \$7.50.

Platanus occidentalis—American Sycamore—Large, bright green leaves. Grayish bark, usually mottled by darker blotches of old bark add interest. 5-6 ft., \$1.00; 6-8 ft., \$2.00; 8-10 ft., \$3.00; 10-12 ft., \$5.00.

Sorbus aria lutescens—Attractive foliage whitish-yellow. 2-3 ft., \$2.00.

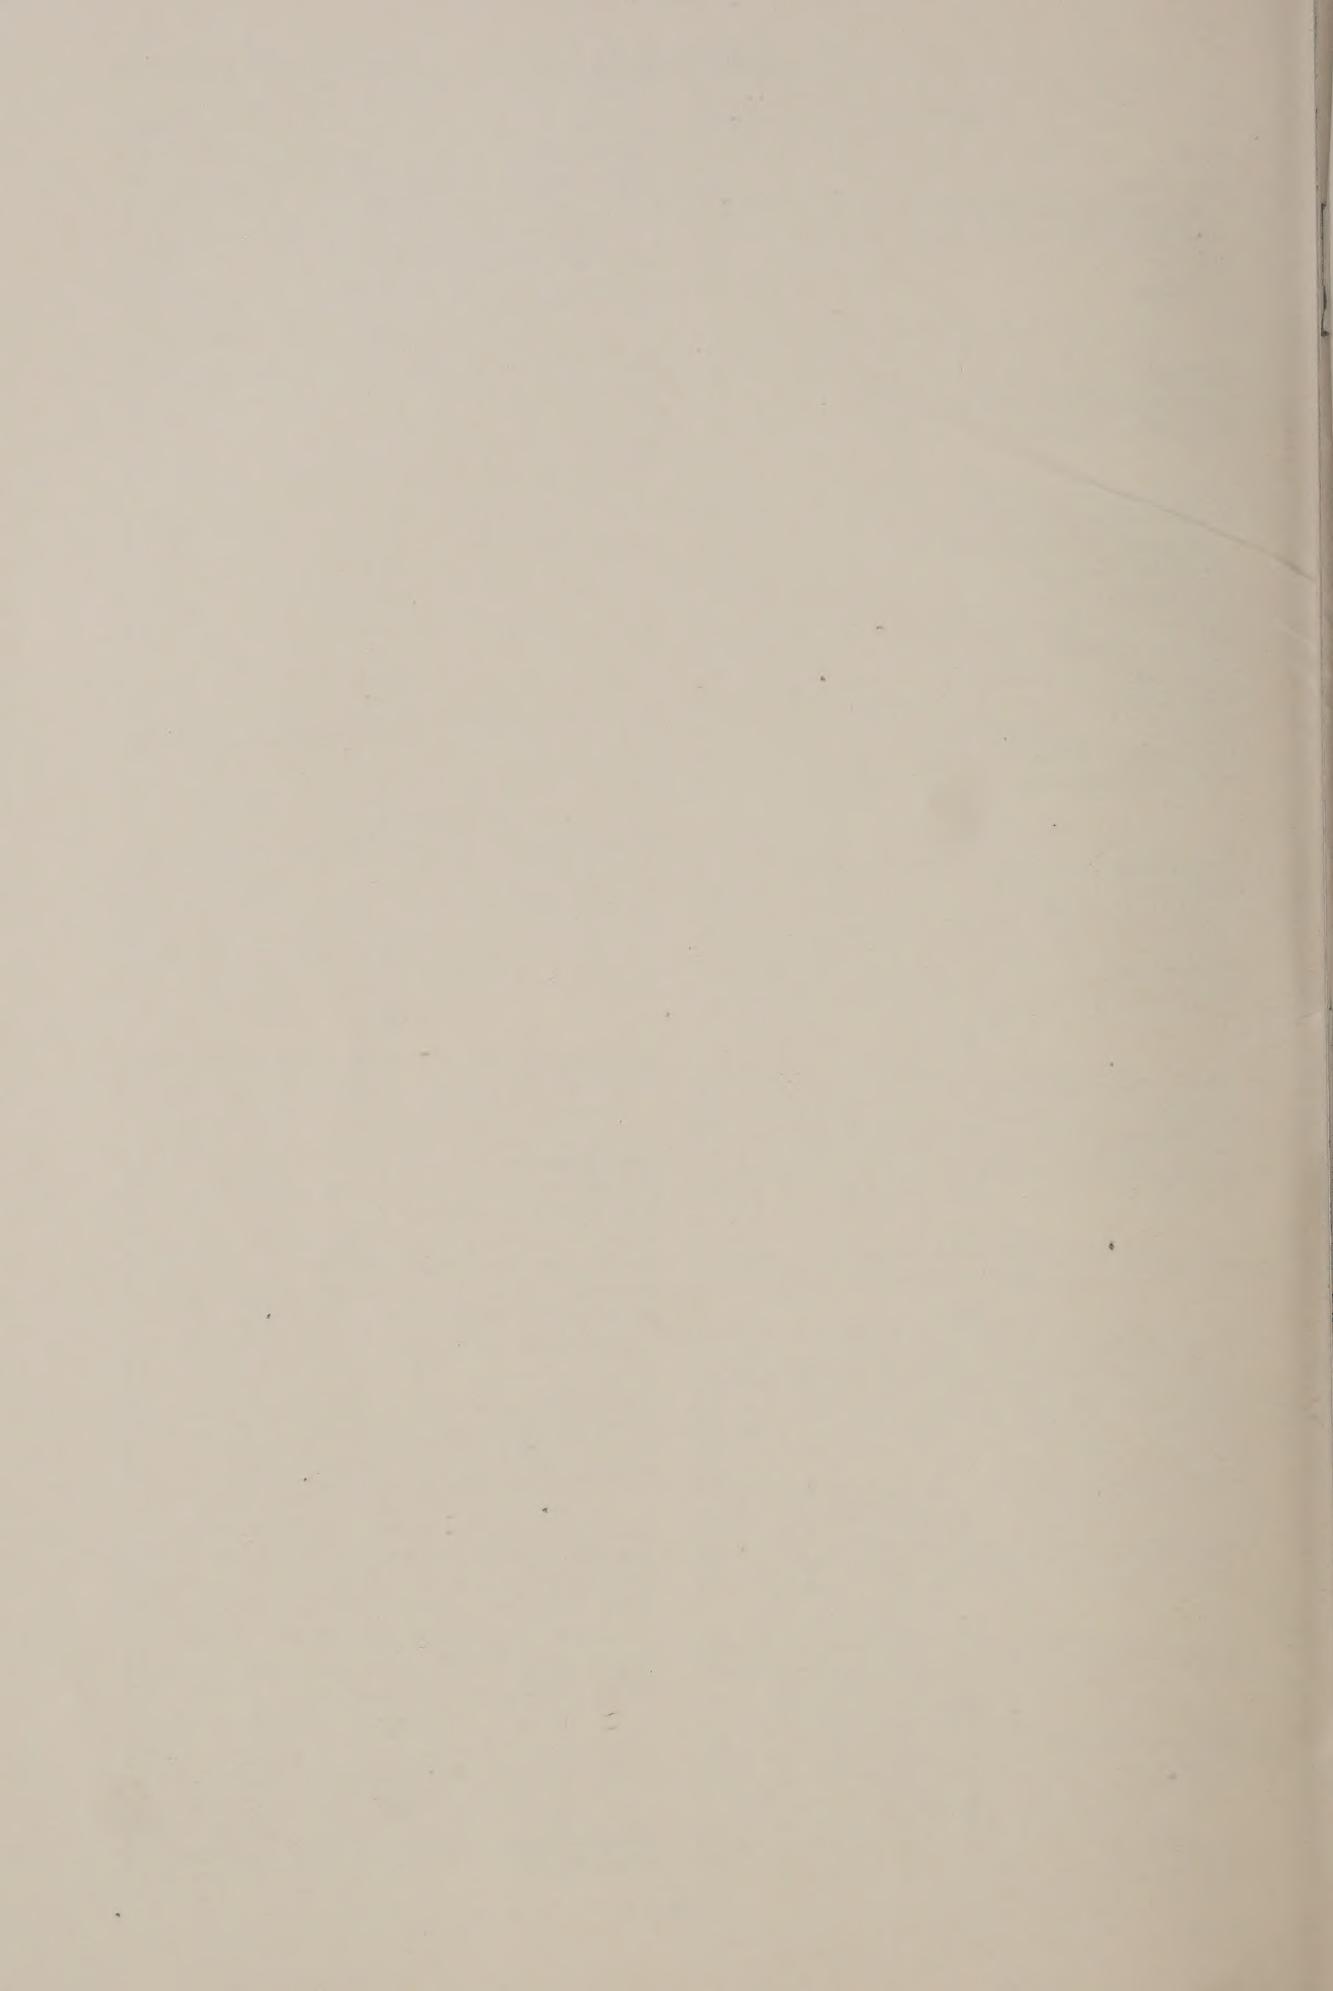

Sorbus Aucuparia—Mountain Ash. A small tree especially noted for its red berries in the fall. Masses of white bloom in the spring. 2-3 ft., \$2.00; 3-4 ft., \$3.50.

Stewartia pentagyna—Mountain Stewartia. White flowers three inches across with white stamens and orange anthers. Rare. 18-24 in., .60; 2-3 ft., .25; 3-4 ft., \$1.00.

Tsuga canadensis—Canadian Hemlock. Possibly America's most satisfactory and most popular evergreen. Hardy, strong grower, beautifully shaped tree with good foliage. Excellent as tree or can be sheared and used as hedge, background or screen. 18-24 in., \$2.50; 2-3 ft., \$3.50; 3-4 ft., \$4.50; 4-5 ft., \$6.00; 5-6 ft., \$8.00.
